# A Masterpiece of Memories

During their growing years from Freshman to Seniors, rookies to professionals, and apprentices to masters, the Senior class successfully painted a masterpiece of their four years in high school. One such student is **CAITLYN BAKER**, a proud and skilled whaler. When asked about her experience at NBHS, **BAKER** responds: "It has made me a more well-rounded person. I'm much more confident in myself. I've made dance captain and lead roles in drama club, and it makes me proud to have made commitments as a Whaler."

Students have painted their legacies into whaler history, but each student found their own muse and created a unique piece of art. Athlete, **EATHAN FARIA** found his muse through sports. **FARIA**, a soccer player, says, "I played a soccer game where we never stopped playing; we scored a winning goal. As I watched the ball enter the net, I realized how proud I was to be a Whaler."

These students are extremely talented. Their skills range from dancing and acting, to competing in a hardcore sport, to writing and playing music. **KENNETH FLEMING** found his muse through his musical experience in high school. "I play the saxophone here at New Bedford high school," says **FLEMING.** "I also scored a 4 on the AP Music Theory test. My experience as a musician here has made me more aware of what it means to have Whaler pride". These students have pushed through another year's worth of work, and worked on the masterpiece of their four years in high school.

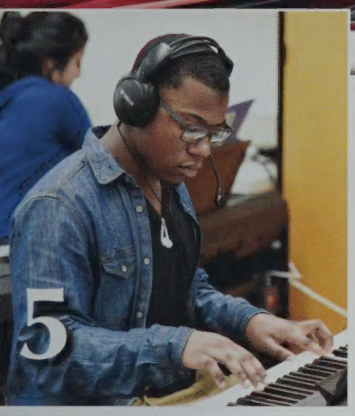
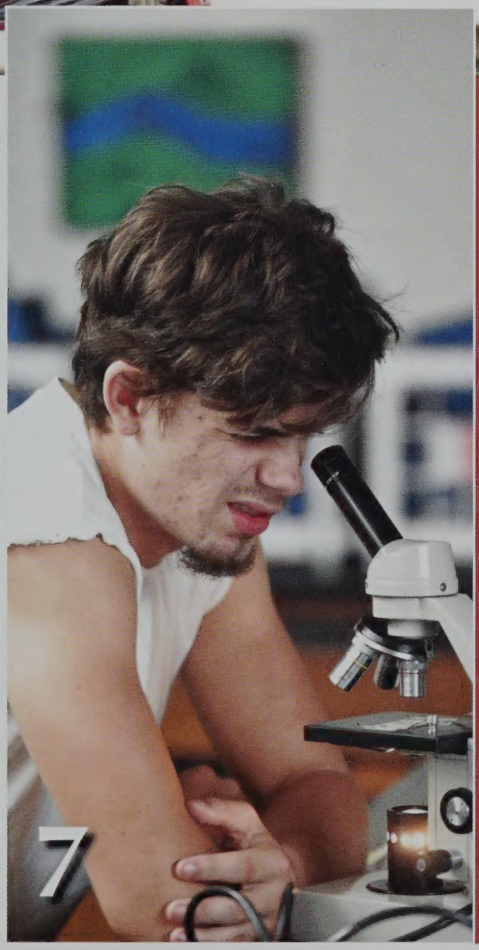
**1** **STEPHANIE TEIXEIRA** and **JESSICA JEAN PIERRE** take on Sports Medicine class. "Everyday always presents itself. It's up to us to take those challenges and run with it," **TEIXEIRA** states.

**2** Striving for more, **JAYLANEE CORTES** pushes herself to new limits in her Quantitative Reasoning class with teacher, Mr. Rossi. "Going to this school has brought me out of my comfort zone," says **CORTES.**

Many students here at New Bedford High are enrolled into the Criminal Justice class. While learning about Criminal Justice, **LINDSEY FERREIRA** says: "I wanted to learn about the justice system and its inner workings."





**3** Staying focused, **GWYNNE EICHMAN** conquers all tasks in AP Literature. "I took this class because I wanted to work on my weaknesses," **EICHMAN** says.

**4** All laughs and smiles, **KEVIN ZELAYA** is pursuing his passions in his criminal justice class: "Criminal justice caught my eye because in my future I want to enlist into the Marines and join the police force afterwards."

**5** Already knowing how to play three instruments, **REIGN DIGSBY** takes on another to add on to his talents. **DIGSBY** enjoys his piano class and **MR. LANGILLE'S** jokes. "**MR. LANGILLE** helped me learn cord progressions," **DIGSBY** shares.

**6** "My grandfather started from nothing. If he did it, I can too." **KARINA CABRAL** states. She is very excited to graduate from New Bedford High and that's what is helping her get through her last year – what comes out of it in the end.

**7** With many different discoveries being made and new things being learned, **ADAM FINN** enjoys his forensics class. "I'm learning about DNA, because its cool knowing that you can catch a killer by their DNA." said **FINN**.

# Can't stop Dancing

Blame it on the Night

A night full of color, teen spirit fills the air as the crowd dances to the music. The Class of 2017 celebrated their transition to Senior Year on May 6, 2016 at Rachel's Lakeside. The Junior Banquet holds a very meaningful purpose.

The celebration was an event dedicated to each student, honoring their next step in high school.

> "It's very rewarding to see so much fun, and how the class comes together."
> **MRS.CETENICH,** Assistant Principal

It is significant to understand that it is not just a celebration of reaching Senior Year, instead it is the memory of having walked through high school for four years as a family. "It's very rewarding to see so much fun and how the class comes together," said **MRS. CETENICH.**

It was certainly a night of memories made. "There were so many things to remember. The glass shattering, the endless laughs and speeches made from fellow classmates," said **ALEXIS GONZALEZ.**

The event was a night where the class came together as one, a beginning to the future. "Seeing everyone dressed up was funny because we usually wear sweatpants and messy buns," said **ANNETTE ARGUETA.**

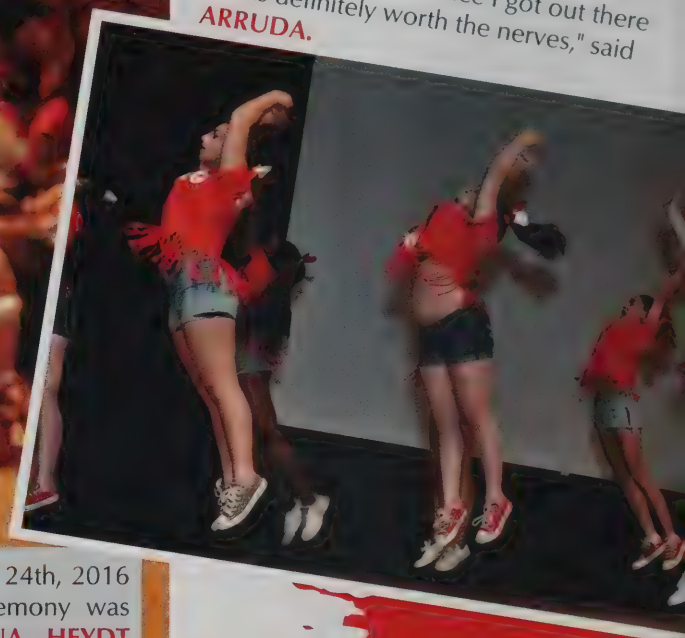
At this year's annual Passing of the Whale, New Bedford High School's cheerleaders performed before the festivities started. Senior cheerleader, **KAITLYN ARRUDA** couldn't help but feel pumped up for this day. "It was nerve-wracking but once I got out there it was definitely worth the nerves," said **ARRUDA.**



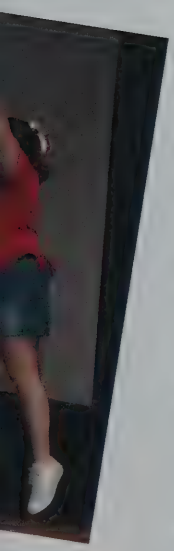
School spirit was in the air on June 24th, 2016 in the auditorium where the ceremony was taking place. Sports star **JIANNA HEYDT** showed off her excitement by completely crossing off "juniors" from her shirt and replacing it with "seniors"! "That very moment, I realized we run this now... I'll never forget the moment we became seniors. It's bittersweet," said **HEYDT.**

1 Sitting in the audience, **AMBER GILL** watches as the excitement begins.

2 The Class of 2017 joined together on stage after taking their class picture to celebrate their new beginning with the New Bedford High School mascot.

# *Bring it* ON

## CLASS OF 2017



The time has finally come for the Class of 2017. Former juniors rushed into the auditorium for the moment they've been waiting for, being crowned seniors. Since the first day of Freshmen Year, the Class of 2017 worked hard to get where they are now. They showed the pride that can be felt when you put in full effort, as **KATHERINE TEJEDA** knows.

"The feeling when the former seniors passed the whale down to my class was a sense of relief. We finally made it; we are officially seniors! We've come such a long way these past years, and this is just the beginning," said **TEJEDA.**

After long school years and hard work, all of that effort paid off for the Class of 2017. "It feels like everything I've worked for is finally starting to feel worth it," said **LYNEA GILREATH.** The former juniors were starting to realize that this was the first big step in their road to graduation. When it comes down to it, the struggles aren't remembered as much as the memories made throughout the years. These memories were appreciated by **JULIA GONCALVES.**

> "It feels like everything I've worked for is starting to feel worth it."
> -LYNEA GILREATH

"Passing of the Whale meant for me that I can accomplish anything if I put my mind to it. I knew it would be a long hard road to get to this point, but it would all pay off. I couldn't have done it alone, which is why I am so grateful for my family and friends who never stopped believing in me. I am so proud to be called the Class of 2017. "

BY: **HANNA LANGEVIN**

At this year's ceremony, the Junior Class Officers, **GINA CONNOR** and **JORDAN BOULAY** ran away from the former senior class students after winning the tug of war between the upcoming seniors and the graduating seniors for title of "senior class." The Class of 2017 was ready to accept their new title. "It was truly amazing and it felt like our class finally made it, stealing the whale signified the beginning of becoming a senior," said **JORDAN BOULAY.**

# The Masters

## Faculty & Staff

Sharing the expertise of their craft

The Masters are the teachers of art. They show the amateur artists what they know, the ins and outs of their craft. They supply the young artists with the tools needed to turn a blank canvas into an art piece, harnessing all of their potential.

Artists may make mistakes as they set out to create their paintings, so the masters are always there to help them, to make sure they never give up. With their help, an artist is able to create the most pristine masterpiece possible.

The Artists are the seniors, who will each display to the outside world what New Bedford High School is really made of and what they can do. "I think it's super important to try to get kids involved outside of the classroom," said math teacher **MR. MOSHER**. Artists have sought help from the masters since Freshman Year. The Artists need the Masters so that they can be taught all of the necessities for their career or college.

> "The most rewarding part is having a chance to interact with great students every single day."
> **-MR. DEBRITO**

When asked about the the most rewarding part of being a part of the faculty and staff at New Bedford High School, football coach and graduation facilitator **MR. DEBRITO** responded by saying, "The most rewarding part is having a chance to interact with great students every single day." The Masters truly care about the Artists' progress with their artwork, and without them, the artists would have never finished their four year masterpiece.

# HEADMASTER

To the Class of 2017,

Congratulations on your accomplishments. Your high school graduation is a memory you will always cherish. You worked hard to get here, and the experiences of your last four years have played a role in shaping the adults you have become. Now your journey continues. Starting today, continue to look for and accept the opportunities the future will present. Where there are none, create them. Reach out and address difficult tasks head on. Don't let fear stand in the way. Pursue a purpose, then practice. When you succeed, keep practicing. Never give up.

Your experiences as a New Bedford High School Whaler will be your guide, from the friendships that you made to the lessons that you learned. As you move on, take New Bedford High School's core values with you and incorporate them into everything that you do. Creativity, Determination, Pride, Responsibility and Respect.

As the Headmaster, my best wishes go with you. You have made our school stronger. I wish you continued success, and remember, you will always be a member of the New Bedford High School family.

# The ARTISTS

*Painting our last memories*

## Senior Class

As artists, the seniors are putting their final touches on what has been a memorable high school experience. They have to be very steady and precise while completing their masterpiece. An artist's perspective changes based on what they have been through in the past and what they're going through now. Every artist has become unique in their technique.

When you first start a painting, you may question your ideas and may decide to change it. When asked how **IVAN PIRES** has changed from Freshman Year to Senior Year, he said, "I didn't know what high school was about until Sophomore Year when this was serious with all the deadlines and stuff you have to do, this is not like middle school."

**"It's been a very rough four years, but I'm happy I am where am and I'm happy that I went to New Bedford High for my four years because it helped me through a lot." -KENDRA MORRIS**

Senior artists at NBHS all love a different part of their masterpiece that they have worked on.

Senior **TERRELL SANTOS** said, "My favorite part about high school was being part of the sports and being a Whaler."

Throughout the painting process you may make a few mistakes, but the end product is picture perfect. "It's been a very rough four years, but I'm happy I am where I am, and I'm happy that I went to New Bedford High for my four years because it helped me through a lot," said **KENDRA MORRIS.**

Every painting starts with an idea, it is worked on overtime, and turns out to be a unique masterpiece, just like the graduating Class of 2017!

# Our First Showcase

From finger painting and babbling to being the last '90s babies to graduate, the Class of 2017 never forgot their childhood toys, television shows, and other beloved keepsakes. As a child, you never realize how fast time flies. Children dream of growing up, but once that happens, they wish they could be small again, as **SEANNA BRUM** knows.

"Thinking about my childhood is so nostalgic, considering I am way older now. Being so young, I couldn't wait to grow up and start doing grown up things, but now I see how easy I had it! I'll never forget the imaginary friends I had and my stuffed animal audience for when I performed " said **BRUM.**

Daycare to Senior year, crawling to walking, gurgling to graduating, these '90s babies have never stopped painting their way in the world and becoming part of the legacy of the iconic 90's era. "I wish I was little again; there were way less responsibilities then," said **ELIZABETH BLANCHARD** when asked about her childhood and how it relates to her senior year.

> "Thinking about my childhood is so nostalgic."
> -SEANNA BRUM

Being the last set of '90s kids in high school gave a sense of pride to this year's seniors, which was felt by **LILY BUCKNELL**: "It's so scary to think that I'm part of the last '90s generation to graduate. It's like these last four years have blown by and I'm scared to start actually living on my own. If I could go back in time, I would do it just to relive all the awesome memories. "

# Class Advisors

To the Class of 2017,

Words cannot explain the pleasure we have had working with you over these last couple years. It's hard to believe that graduation and prom are right around the corner. As you get ready for the next chapter in your life, remember all the memories you made here as a New Bedford High School Whaler. You were here during a time of change which can be difficult for some, but you rose above and have proved your resiliency.

You have given us some great memories to hold onto as well. We will miss you stopping into our offices to tell us about your weekend, your college acceptance letters or even just to let off some steam. Even on the toughest days you were always able to put a smile on our faces.

As you leave New Bedford High School, cherish the friendships that you made, the lessons that you have learned and the obstacles you overcame. In this next chapter, keep your minds and hearts open to new experiences and remember "the choices you make today, shape your world tomorrow."

Wishing you the Very Best,
Your 2017 Class Advisors

# Our True Colors

*"I see your true colors, shining through." -Cyndi Lauper*

Our senior artists showed progress, pride and dedication throughout the school year and effectively displayed their true colors. High school helps you find yourself, as well as relationships with others. "I've made such good friends here, and I think it has allowed me to get involved with school activities," **TESSA CARREIRO** explained.

High school inspires students to want to better themselves. With the help of the teachers, guidance counselors and administrators, seniors will be able to walk across the field with plans for the future. "High school inspired me to want to further my education," **TIMOTHY QUIDGLEY** said.

The Artists push themselves to succeed in their final year of high school. Our seniors stressed through many hours of hard work to be able to walk across the field. Although this is the end of high school, many others see it as a new beginning. Many seniors plan to pursue college. "I will go to Gallaudet University after high school," **ERIKA LAGUER** shared.

> "I've made such good friends here, and I think it has allowed me to get involved with school activities."
> -TESSA CARREIRO

High School has taught us many things. Over the years, we were able to gain memories that will last a lifetime. We are thankful for New Bedford High School.

# New Bedford High GOT TALENT

Inside the doors of our school we are blessed with a winning and successful tradition. We witness trophies from our great and inspiring alumni whether it's sports, J.R.O.T.C., academics, band, Drama Club, or Show Choir, we have always had great, successful students; but we have very talented students as well. There are many different kids, and they have different talents that you wouldn't typically see at any ordinary high school. Anyone who has witnessed them would give them a standing ovation. Just ask senior **DESTINY LENLING** who is an immaculate dancer. **LENLING** has been dancing for twelve years at the Dance Xtreme studio in New Bedford. **LENLING** said, "Dance has always been my escape and my main source of motivation."

> "Dance has always been my escape and my main source of motivation."
>
> -DESTINY LENLING

Another incredible talent we have in our New Bedford High School community is riffle spinning done by **LOGAN AVELAR**. **AVELAR** is a precise and efficient spinner, he can really get a crowd to be amazed at his skill. He said, "I'm hoping to do an exhibition in college ROTC." Who do you know that can do that?

Senior **BRIAN SANTIAGO** can help with that. Santiago has developed a passion and love for photography. Taking pictures is his peace and happiness. "I bought my first camera because I originally wanted to make films, but one day a friend invited me to shoot his lacrosse game, and I started to gain more interest in photography and capturing stories in one frame," said Brian.

BY: **ZACHARY BRANCO** & **TAYLI FERRAN**

At Mr. Whaler is **LOGAN AVELAR** performing his talent for the show which is rifle spinning - something he is great at doing. He loves doing it in his spare time and hopes to do it in the future.

Sliding the pencil across the paper **JASMINE CRESPO** sketches anime drawings that her sister inspired her to do. "It started out as a hobby but as I grew older I would do it every day non stop."

"I became interested in makeup when I was a little kid. I always used to wear colored lip gloss, and as I got older I wore more of it and began to watch YouTube videos. What I like about makeup is it can enhance your beauty and cover up all of your insecurities."
-**MEGAN REEVES**

As the flash goes off, **BRIAN SANTIAGO** takes beautiful pictures that inspire him throughout life. It has become a hobby he loves doing.

On the computer, **ELIAS GONZALEZ** illustrates amazing images of himself that are completely different and unique.

As the music plays, **DESTINY LENLING** has been dancing throughout her life and participates in competitions and is a dedicated team member of Dance Xtreme.

## What inspired you to start your talent ?

BOXING

"The gym is my second home , the place where I sweat, bleed, cry, do the most, just to shine and become the best."
**-JOSE FERRER JR.**

WEIGHTLIFTING

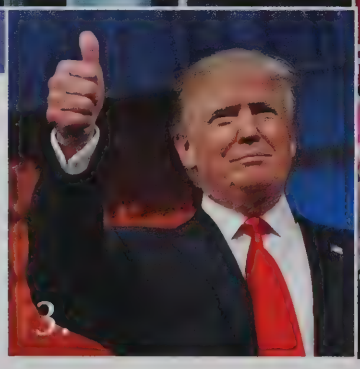
"The idea of getting better with weightlifting kept me going."
**-RUI MARTINS, JR.**

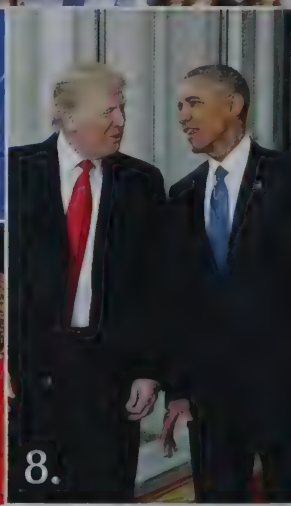
# The 58th PRESIDENTIAL INAUGURATION

## January 20th, 2017

"Regardless of who wins, an election should be a time for optimism and fresh approaches." - Gary Johnson

**1.** A crowd of people stand around the Washington monument in D.C. in support of their country.





The 2016 Presidential Election and 2017 Inaugeration of Donald Trump dominated conversation in our country and around the world for many months. The race between Trump and the Democratic nominee, Hillary Clinton, was close and divisive, with an outcome that shocked many. Change can be good, but it also can be scary. President Barack Obama had served our country for two terms, which for some, did not seem long enough. As for Trump, America now waits to see him rise to this new challenge.

# What will you miss about Obama?

"I'm going to miss his professionalism in the way that he carried himself and handled other things. His respect and caring nature, and lastly, his strive for equality." **-JADAHCIS HOWARD**

"I will miss the fact that he was the best president. He helped everyone." **-ANDREW PEREZ**

"His humanity. He was probably the only president who I've seen that has showed his feelings." **-JASMINE CRESPO**

"I will miss his motivational speeches, the changes he made, and the rights that he gave for more of us Americans." **-KASSIANA SUMBUNDO**

## NBHS Mock Election Results

### TRUMP FACE IMPRESSIONS

The percentages above are the results of NBHS' mock election, which show Hillary Clinton as the top choice, followed by Donald Trump then Gary Johnson.

***"It is time to teach young people early on that in diversity there is beauty and there is strength." -Maya Angelou, author***

As young adults, we are given a great opportunity by attending New Bedford High School and interacting with many students from many different parts of the world. A good portion of the students that attend our school come from different cities, states, countries, and even continents. They encounter tough obstacles: learning a new language making new friends, and getting to know the area. They bring many new and interesting lifestyles to our school.

They show us their language, cultural traditions, food, clothing and religion. When asked what she loves about your native country, **ELIOSON JASME** said, "We are typically not a materialistic country. we are grounded in good manners and respect towards different age groups. Thats what makes me happy. I love Haiti."

> "The American dream to me means to look for a better life."
> **-HELEN RIVAS**

Many of these students are working towards or are experiencing the "American dream." **HELEN RIVAS** was asked what it means to her, " The American dream to me means to look for a better life than the one in El Salvador."

One of the most common parts of being from a different culture is the different foods. Senior **MIGUEL PEREZ** was asked what his favorite food from Puerto Rico was and he responded, " Rice, beans, and chuleta of course!" As students we are many cultures, many languages, many beliefs, but we are one New Bedford High School.

# Seniors & Social Media

*"But first, let me take a selfie"*

After being on the Ellen Degeneres show two times, **QUINN SULLIVAN** posts a picture doing what he loves every day through music.

We live in what most would say a "tech savvy" world. The amount of people who own a smart phone today is ridiculous. People are connecting with their friends and family members within just seconds. The snail mail days are way past us now! With all of the different types of social media, it's impossible to not connect with other people. When asked what is your favorite social media and why, TAYLEE BELTRAN responds with saying "Facebook, because it's popular and an easy way to keep in touch."

Some people use social media to upload pictures of themselves, whether they are on vacation, got a new car, or just have random selfies and videos to share! Especially with the most trending social media: Snapchat. The most exciting part for most people is the amount of different filters you can use. CARLOS OVALLE was asked about his favorite app. "Snapchat is my favorite, because I like sending pictures," said OVALLE. Social media for us is something that we can run to in order to get away from the world. It allows us to share all of our interests. Some would say that it's an addiction, but it's actually a safe place for most. HAYLEY PIRROTTA agrees: "It's a fun way to take up time," said PIRROTTA.

# Ways to School

The student community at New Bedford High School comes from the North End, South End, West End, and Acushnet. The kids who are close to the school will usually walk to school, some take the bus, and others drive. You would be surprised with some of the wheels some students pull into school with. At times you would forget this is a school parking lot and mistake it for a car show. Senior **IROMELLYS DELAROSA** was asked what her favorite memory is in her car. **DELAROSA** said, "Jamming out to music with my cheerleaders (Dajae, Elieen, Shanyah, and Nikki) after we got 2nd place at comp."

Seniors on campus love driving around, just think about it. Picking up friends to go to school and go home, visiting friends at away games, meets, and tournaments. It's not just car rides that are a thrilling time; the bus ride home can be awesome, too!

Senior **CIERA ORTIZ** explains her views on the bus, "You meet interesting people, you hear fun stories, and you make many memories." Even walking home can be pretty fun or interesting at times. You can really engage and witness part of the community on your way home. **DIEGO MONTES** tells his thoughts on it, saying, "I see people interacting with each other, and it gives me time to think while I listen to my music."

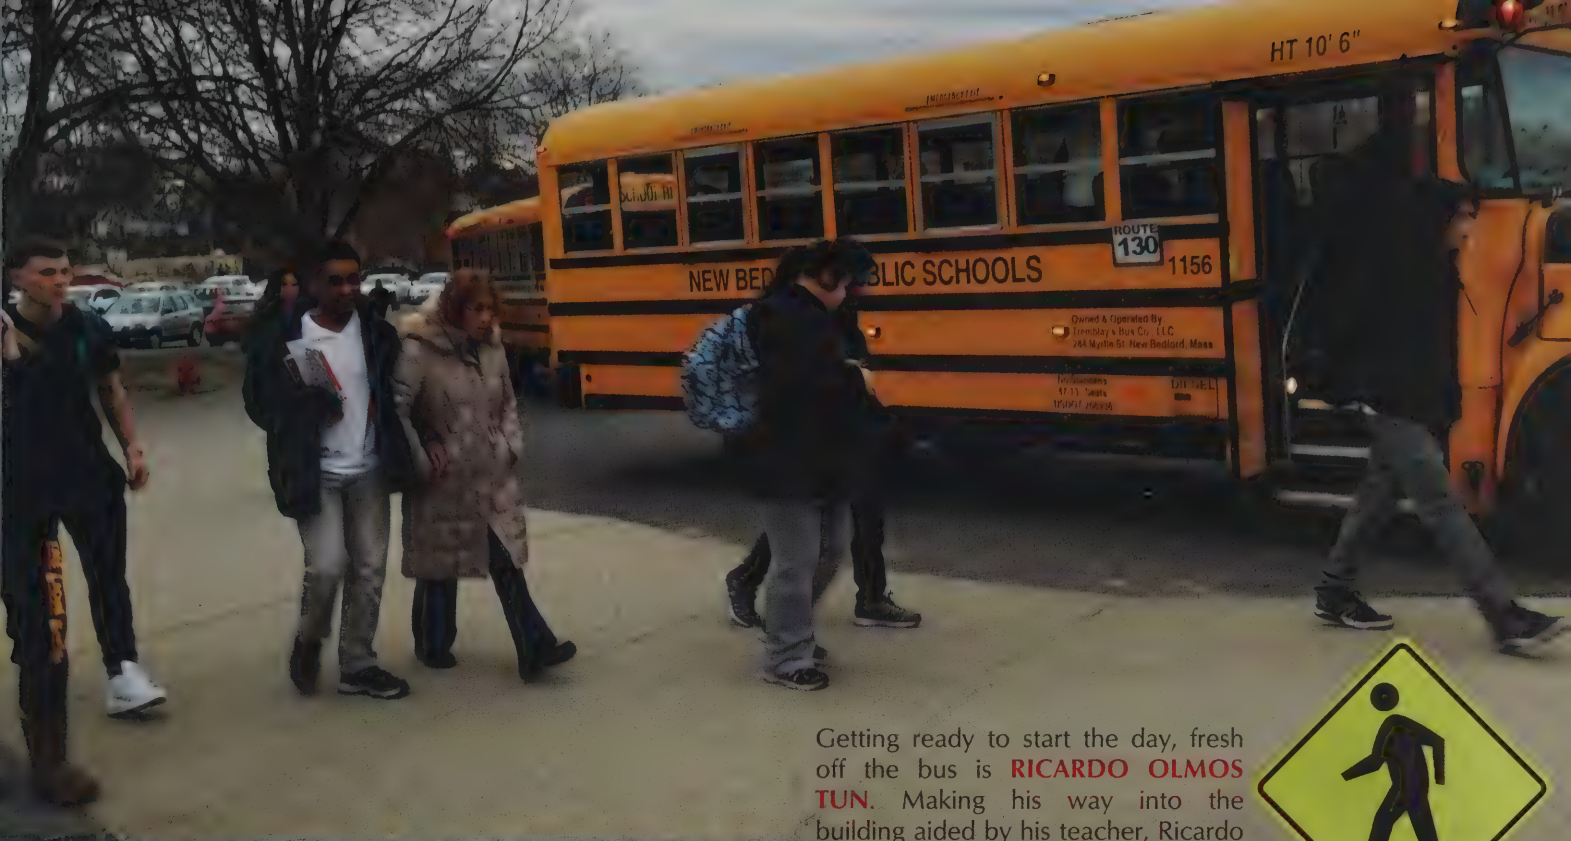
3 Senior **HELDER PEREIRA** giving his sharp Honda Civic a beautiful look to it. Pereria said, "I just like seeing my baby clean."



Getting ready to start the day, fresh off the bus is **RICARDO OLMOS TUN.** Making his way into the building aided by his teacher, Ricardo explained why he likes the bus, "I love coming to school."

A group of seniors have a clever way of knowing where their cars are parked. We should all embrace our inner weirdness. Every one has or does something that automatically discloses the door to ever being normal. Whether it be a strange scent we love to smell, odd collections or even a funky style, these things are what make us unique. These are the many aspects that allow us to define ourselves. Being called weird is like being called a limited edition, meaning you're something people don't see often. Remember that. "Id say being weird is way more fun than being normal, and God made weird people for a reason. (Normal is stoochy)", said ANGELA GIBAU-SOARES.

We are all a little weird. And that's not a bad thing. If anything it makes life more interesting. "Weirdness isn't a feeling that you wait for, it's a choice you make that leads to being different", said KATHERINE TEJEDA. We shouldn't try so hard to fit in when we were all called to stand out. "Weird is the deep inner feeling of a person displayed on the outside. It's the best part of a person", said ANNETTE ARGUETA. In conclusion, imperfection is beauty, madness is genius. And it's better to be absolutely ridiculous rather than absolutely boring.

# Do you believe?...

***Aliens, magic, horoscopes, karma, ghosts, myths, supernatural.***

New Bedford High School has a very diverse, multicultural environment. Because of such diversity, both students and teachers have extensive amounts of beliefs. ranging from aliens to ghosts, bad karma, or weird superstitions. One student is a speck of dust in the sea of NBHS culture, but everyones voice deserve to be heard. What do you believe in?

Do you think that there could be other life forms that live in the outer space? Well, **COLLIN COUTO** believes in aliens. "I believe in aliens because space is crazy huge and theres so much stuff out there we haven't seen yet," said **COUTO**. Maybe one day, we'll find our E.T neighbors.

On the topic of outer space, how big do you think the universe is? Most would say that the universe is limitless, but **RYLAN GRACE** thinks otherwise. **RYLAN** believes in multiversity. "If space is infinitely expanding, then there is too much space for there to be only one universe," said **GRACE**. Hopefully human civilization will be so advanced that we can travel between universes. But for now, lets bring things closer to home.

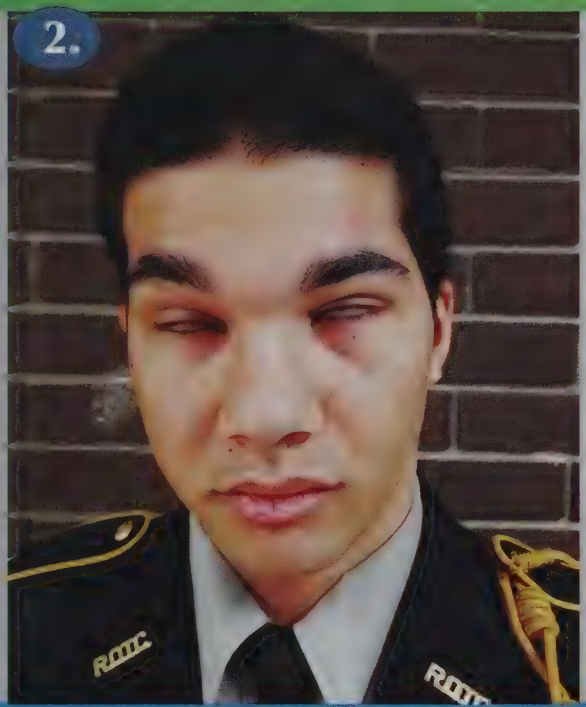
> "If space is infinitely expanding, then there is too much space for there to be only one universe."
> - **RYLAN GRACE**

Unlike **COLLIN** and **RYLAN**, **PETER GONZALEZ** believes in the supernatural; that sometimes a spirit will linger after death. **PETER** believes in this because of personal experience. "I believe in the supernatural because one time when I was home, I heard a little girl laughing from my attic," **GONZALEZ** said.

Here at NBHS, we believe in things that are very earthly, like the supernatural or our religions. Even things the stretch our ideas of existence, like if we are alone in this universe or if this universe is one of many. But what do you believe in?

BY: **KENNETH FLEMING JR.**

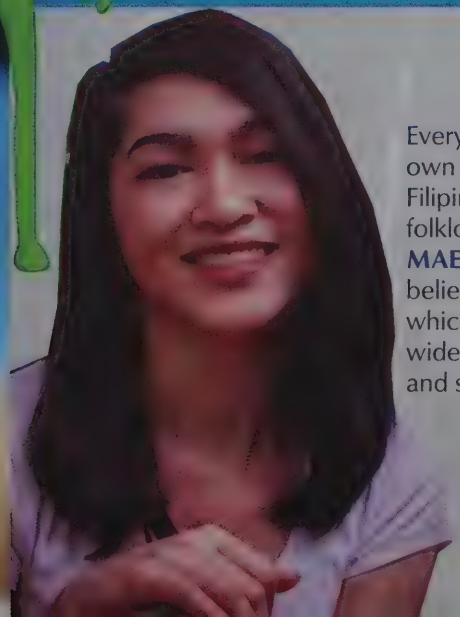
Belief creates the actual fact. As for **AIDAN PARKER**, he believes in the supernatural. "Theres no way the universe fell into place perfectly," said **PARKER**.



**1.** Do you check your horoscopes everyday? I know **ILIDIA DOS SANTOS** does! **DOS SANTOS** says, "Horoscopes get me through my day, sometimes it's weird because I feel like I actually live what it says."

**2.** Who did it better? **KOBE** or the alien? As **KOBE REZENDES** does his alien expression he states, "I don't believe that we are the only ones out there, because the universe is infinite." Pretty cool right?

# *What are your beliefs?*



Every culture has their own belief. In the Filipino culture, many folklores exist. **HANNA MAE BASA** states, "I believe in an Aswag, which is the subject of a wide variety of myths and stories," said **BASA**.

Many people believe in common things, like **EVERETT GONZALEZ**. He believes in karma. "I don't doubt that there isn't aliens with many different planets, it is a huge universe," said **GONZALEZ**.

Throughout the years, like most things, trends come and go. There have been words that became part of everyday discussions heard around the school. Even different hairstyles have become more popular than others. Seniors of New Bedford High School have also kept in touch with the latest fashion brand styles and also video games.

Walking through the halls, you can hear all of the slang words getting carried throughout conversations among almost all students. Words such as "lit" or "iight" have become very common. When asked what slang words were heard around the school **ELIZA SANTIAGO** said, "'Fleek' been used so much that the word has become annoying." ding right now."

Fashion brands such as Nike, Adidas and Vans have also became popular overtime, causing debate over the best shoe to wear. A lot of controversy has also sparked between the Playstation and X-BOX supporters. NBHS gamers always stay informed about the top games in stores. Playstation gamer **ALEX DELEON** told us "Call of Duty Black Ops 3 is trending.

> "Man buns are trending but they look wreck when not done right."

"A moment that I will never forget is the time that I went on my very first college tour. During my sophomore year, Mr. Nagayoshi took the English class on a field trip to Brown University. I had a lot of fun seeing what college was like for students."

# Highlights

## the artists in play

To create a masterpiece, you need a muse and a technique, and many seniors at New Bedford High School chose sports to highlight the memories of their high school masterpiece. A highlight is an area that is strongly illuminated. Sports have a huge impact on a lot of students, who are grateful for the skills it highlighted in their lives. "Playing baseball helped me academically by forcing me to try harder to pass my classes so I wouldn't have to miss any games or get kicked off the team," **ANDREW PAIVA** stated. Sports help students get involved and maintain good grades.

Athletes work hard by going to school everyday and heading to practice right after. "Playing soccer has helped me a lot physically and mentally. The training is hard, but at the end it's worth it," **JOSEPH CENTEIO** explained. Not only does playing sports help maintain good grades and a healthy lifestyle, but it influences the players to be all-around better. Not just better at the game, but better as a person. Sports can help you learn discipline and perseverance. "Sports influenced me because it has done many great things such as giving me opportunities in the future," **DAKOTA AFONSO** shared.

Amidst a difficult Fall season, the Whalers found themselves struggling to step up their game. Through hard work, dedication, and the brotherhood of the team, the Whalers played their hardest in an attempt to come back out on top.

Mental and physical preparation is crucial in the time leading up to a big game, as confirmed by **JEFFREY CLARK.**

"Everett [was the most challenging team to face] because we were not prepared and did not have a good practice," **CLARK** said.

The team practiced, sweat, and put their all into their performance, determined to prove to themselves that they are capable of more than what they were putting forth. **ERIC MCINTIRE** said that the only way the Whalers would manage to pull themselves out of their rut was to "keep practicing."

Regardless of the results of the games, the team showed everyone watching them that football is more than touchdowns and scoreboards; it's about the camera within your team, how willing you are to maintain that through difficult times, and the advantages you gain through the game.

"I always looked forward to the sports after school," **LOGAN DEBROSSE** said in reflection of what he's gotten out of this football season. "I'm sad [that it's over], but I'm excited for the future."

Finish

# The Race

Girls Cross Country

As the starting pistols loud fire sounded, the NBHS Cross-Country girls began to run at what seemed to be faster than the speed of light. Dashing over the grassy field of New Bedford Highschool and into the open air, the girls ran towards the finish line. Even though some runs were tough, the girls prepared themselves well and reached limits that they never thought were possible.

The "Big Three" was a very important event of the season. The girls of the NBHS Cross-Country team had to prepare themselves both mentally and physically. "I stretched and did warm ups with my team to get relaxed and ready for the race," said **TAYLOR PIMENTAL.**

MVP of the season, **KATHERINE PAPAS,** believed in herself and outran her own anticipations. "I definitely exceeded my personal expectations by scoring so high at all of the meets. I never expected to get 4th place at The Big Three against about fifty girls that were almost all taller than me," **PAPAS** said.

> "We have a young unity among the team. They all enjoy being at practice and working together."
> **- COACH TILTON**

Each and every run, the girls worked as a team and pushed each other to be the best that they can be. Coach **JEREMY TILTON** said of the team that they "have a young unity among the team. They all enjoy being at practice and working together."

# One Hill of a Sport

## Boys Cross Country

Zooming down the track, New Bedford High School's fastest athletes compete against some of the top physical performers in the state. The Fall season proved to be challenging for the team, filled with rewarding wins and devastating losses. The pitfalls of the season did not demolish the dedication of the team.

Coach **JEREMY TILTON** said, "We had a lot of new runners, but they all worked hard to improve their performance." **SHADY HASSANINE** went on to say, "I feel like I exceeded my expectations practice-wise, not to mention in competing."

Although the entire team performed to their highest ability, Coach Tilton recognized **BRUNO PIRES** as being the performer who stood out to him this season. "He was our top performer, and the top performer in the area," said Tilton. The coach continued to praise **PIRES** for his outstanding teamwork, and his leadership skills. **PIRES** describes his mental and physical preparation as "believing in myself and a lot of hard work." That belief and hard work had clearly paid off, as he was given the chance to run the Division One meet.

> "We had a lot of new runners, but they all worked hard to improve their performance."
> -COACH TILTON

The realization that this would be their last fall season being a driving factor, the team pushed themselves to close out the year strong. "I'm going to miss my teammates, coaches, and the meets," **PIRES** said with sentiment, "but it is what it is."

**1** Coach **JEREMY TILTON** smiles proudly with his two senior captains, **BRUNO PIRES** and **SHADY HASSANINE.**

**2** **DEREK ARRIBADA** focuses intensely as he runs through the grass. "Before the race, I was nervous, but also excited to run and try to get a personal record," said **ARRIBADA.**

**3** Jumping high in the air to warm up his legs, **JOSE CORNEJO** gets ready to run. "When running, I felt excited with alot of adrenaline until I got tired, but when I got numbed, I felt awesome," said **CORNEJO.**

**4** **SHADY HASSANINE** uses his longest stride to catch the runners up ahead. Even when racing is hard, "I had to run the best I could because that's what all the training went for, and in most cases I said to myself 'What's the worst that can happen?'" **HASSANINE** said.

Field Hockey

Jetting towards the goalie, the NBHS girls field hockey team miraculously worked their way towards the net in hopes of scoring a goal. The closer they became, the louder the crowd roared. Stunned families and friends watched intensely as the team moved towards victory. No goal was ever made without a little sweat. The girls of the NBHS field hockey team always managed to overcome the many obstacles that were faced this season "by pushing through it, and always having the I can do it attitude," said **SERENA MARQUES.**

It turns out, the team accomplished way more than just winning games. Getting together over Christmas parties, and the many bus rides that took place is exactly what made the season worth it.

## Girls Soccer

Bolting across the field of New Bedford High School through the opponents' defense, the NBHS girls soccer team rapidly kicked the ball to each other in aim of scoring a goal. With an intense desire to win, the ball is vigorously kicked past the goalie and into the net. **JAUCILYN TIMMS,** captain of the girls soccer team, knows that every teammate's effort put into each game matters. "I practiced really hard and knew that we all had to be a team in order to compete well," said **TIMMS.**

For some people, the motivation behind becoming a high school soccer player derives from having a passion to play from a young age. "I have played soccer my entire life, so playing here at the high school seemed like second nature," said **ARIANA BEDOYA.**

It's good to set high expectations for ourselves and others and to work together as a whole.

> "I practiced really hard and knew that we all had to be a team in order to compete well." **-JAUCILYN TIMMS**

**TIMMS** said, "I exceeded the expectations that I had for myself because I became a captain. As a team, I expected us to win a lot more, but it didn't really happen for us; and that's okay because you live and you learn." Overall, no matter how many wins or losses that the girls concluded their season with, the hard work and dedication that they put in is clearly recognized. Together, they've created memories that will surely last a lifetime. Winners are not people who never fail, but people who never quit.

What was your favorite memory of the season?

Some have said it's not a sport, but as these girls know, cheerleading is more of a sport than anything. All of the members on the team gave 100 percent all season, and they supported each other on and off the sidelines. The team showed what can be done when you always put in full effort all the time, as **KAITLYN ARRUDA** knows.

"My biggest obstacle was getting the cheers perfect and all I had to do was practice practice practice, I have to listen to some music to pump me up!" said **ARRUDA.**

Coach **HOLLY SZURLEY** pushed the fall team to work their hardest every practice. "We worked hard, played hard and came out with a great rally. We had a great season and I think that we all learned something about ourselves," said **SZURLEY.** When it comes down to it though, the memories made by the team throughout the season showed the bond that can be shared between girls and a love for a sport. **KAITLIN POIRIER** said, "I just pushed through and remembered that cheering meant everything to me. I always pushed my teammates and myself to do better, I love my girls and my team."

Clubs & Activities:
Artists blend together to create a diverse masterpiece

Here at NBHS, students use their creative minds, work together, and blend with others to create the many clubs and activities available to them. Clubs and activities create diversity, which blend together and create the unique surroundings. "Key club means a lot to me. We do community service activities. It gives me a good feeling inside knowing that I have helped people in need and gave back to my community," said **NICOLETTE DUBOIS.**

Our Artists blended their colors into their masterpieces with the help of school clubs and activities. For most, clubs are an important part of the school year.

Clubs help students blend with others, and they also helps to blend their senior year into fun memories.

# Almost, Maine

Almost, Maine is a play by John Cariani, comprising nine short plays that explore love and loss in a remote, mythical almost-town called Almost, Maine.

Lights, Curtains, Action! The Drama Club successfully puts on their fall straight play, "Almost, Maine." Many of these young talented actors challenged themselves as they transformed on stage to their perspective roles as JONATHAN FURTADO knows.

"Having to be two totally different characters. It challenged my acting ability to not just play the more comedic part, but to also play the very serious one would have to be my favorite part," said FURTADO.

After long practices and hard work, all that effort paid off when the cast finally had opening night on December 2, 2016. Followed by two more dates, the Drama Club successfully put on a great performance, which CHELSEA SPITZ was excited about. When it comes down to it, practice makes perfect. To prepare for the play, the cast members did different things. "I mostly just kept a cool head and stayed focused so that we could have the best show possible. I treated every run we did as the actual performance," said SPITZ.

> "I treated every run we did as the actual performance."

# Show *Your Rally* SPIRIT

There are many things in life that we will experience and never forget, and the Pep Rally is one of those things that will always be cherished and remembered. On November 23, 2016, NBHS came together to share and celebrate the special spirit that Whalers carry with themselves inside of and all around New Bedford High School. CILA-CEVINA OLIVEIRA mentioned that being a Whaler is "a lot of fun!"

One of the most important qualities in life is how you carry yourself, and on this very day, the Whalers carried themselves well with nothing but pride and joy. "I am proud that we have so much Whaler pride. We come together like a family," said SHANESSA ALARCON.

Many people put a lot into what they wore. Lenice Andrade said, "I put a lot of time and effort into my shirt. I drew a whale and wrote 'seniors' on it in big letters."

"I put a lot of time and effort into my shirt. I drew a whale and wrote 'seniors' on it in big letters."
-LENICE ANDRADE

Passion is energy. It is born when you catch a glimpse of your true potential.We find our true potential in high school. We should never underestimate the power of our passion, because without it life is nothing, and high school was truly everything. High school is where we truly find ourselves. Whether it be though sports, band and music, art, or even academics. Each and every one of us have a passion for something, and although we may have a passion for who we want to be, or where we want to go in life, the burning fire of love, friendship, and joy will always remain in our hearts for what it is and always will be like when it comes to being a Whaler.

# Turkey day GAME

Taking the field for the 123rd annual Thanksgiving day football game against Durfee High School, the NBHS Whalers played an amazing game with a roaring crowd supporting them throughout the festive occasion.

The Thanksgiving day football game between New Bedford and Fall River's Durfee High School is one of the oldest running Thanksgiving Day rivalries traditions in the country– this year being the 123th time the Whalers face the Hilltoppers. Despite the long-running tradition, students, teachers, and family members still come every year to the field to watch football. "I could have been home preparing for Thanksgiving, but I came to watch the game. Even though the outcome wasn't what we expected, I know I kept cheering, and I'm proud of them," said bystander **LIZAIRA MORALES.** Football is a fun sport to watch, but to interest, the NBHS cheerleading team kept the crowd and the football players on their toes. According to **TATIANNA MORALES** the NBHS cheerleaders never lost their energy. "Even though we knew they were losing, we kept picking them up. It's senior year, so we went all out to keep them going," said **MORALES.**

> "I kept cheering and I'm proud of them."

Despite the cold weather and the busy bustle of the holiday, Whalers and Hilltoppers from both Fall River and New Bedford stepped onto Walsh Field to watch an amazing Turkey Day game before heading home to celebrate the day.

The NBHS Whaler Marching Band and the Durfee HighSchool Marching Band unite to perform the National Anthem at the Thanksgiving Day yearly football game between the NBHS Whalers and the Durfee High School Hilltoppers. It's always been a tradition for the band directors of both schools to bring their bands together as one giant marching band to perform our national anthem.

"It sucked because I might not play football again. I felt like if I actually played, we could have won the game."
**-ISAIAH SYLVIA**

"It sucks knowing that I'll never suit up with my brothers again."

The NBHS Whaler Football team plays one of the best games of the season. They fought hard until the end of the game, and put on an amazing performance despite the out come of the game.

The cheerleading team plays a big role in encouraging their football team, as well as getting the crowd to make some noise. The NBHS Cheerleading Squad spends hours learning forms and cheers to cheer for the NBHS Whaler football team on the annual Thanksgiving Day game.

Walking away with the coveted title of Mr. Whaler 2017, **DOUGLAS INESTROZA** rose to the top with his impressive piano skills, freestyling, and charm.

"I didn't think I had a chance, I signed up past the due date, and only came for the last two rehearsals. At this point, I went to have fun. Winning made me feel like an underdog, if I could do this, no matter how small or significant, I can do anything else." said **INESTROZA.**

All that effort and hard work during practices paid off when the boys put on a great show for their families, friends, teachers and community but they couldn't have done it without the support from their escorts. **LYNEA GILREATH** was asked how it felt to participate in a New Bedford High tradition. "I loved working with my classmates to put on an amazing show. My favorite part had to have been working alongside my best friends." said **GILREATH.**

The night turned out to be a great success especially with the help of the two commentators **DIANA LIMA** and **YENSI SANTOS** with their endless jokes and constant upbeat attitude. # Yearbook
## Crimson Log

A yearbook is a love letter a school writes to itself. Together, the staff put their time, energy, and commitment into creating a historical document that we can always look back on to mark our senior year. None of this could have ever been possible if it weren't for our amazing adviser, Ms. Miller, along with the tremendous help of Ms. Oliveira. "A yearbook is filled with all of the great laughter, memories, and success one has obtained in their four years of high school. These aspects will allow you to remember everything in the future," said ZACHARY BRANCO, our great copy writer! We all have awesome memories that we would hate to forget. "I think that yearbooks provide a way to look back at your high school years, and remember all of the people and events that took place in order for it to be amazing," said ANNETTE ARGUETA. ALYCIA WOOD adds, "A yearbook is a book full of great, memorable memories of my classmates and I...all we've done and accomplished." Together as a yearbook staff, we have created something beautiful.

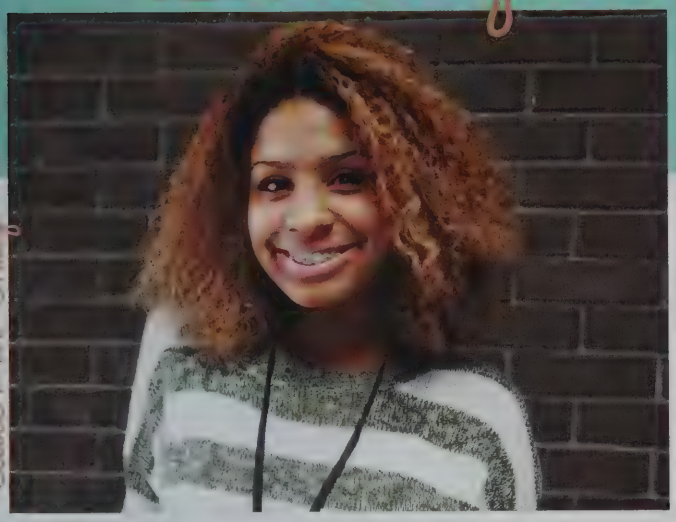
# Letters from The Editors



Editor-in-Chief

*They say that your four years of high school are gone in the blink of an eye. In the moment, it may seem like forever... But 'forevers' aren't infinite, and eventually they come to an end. Looking back onto not only my high school years, but even middle school and elementary, I am proud to say that I can look back with a smile. I am thankful for all of the people I have met. Even all moments that were good and bad. Because in the midst of it all, there is growth. Life is the most precious gift of all. To be editor-in-chief of the 2017 Crimson Log was a privilege. I am so greatly honored to have been able to participate in creating this yearbook.*

*I am extremely thankful for Ms. Miller. Without her gentle heart and constant perseverance, and Ms. Oliveira's hilarious, energetic humor, I may have not been able to make it this far. They believed in me, and that means more than anything. Now our time at New Bedford High School has come to an end. I can only hope that you all look back into this yearbook always remembering the wonderful moments that you have created. Each day is a new picture painted. Don't forget to make it colorful!*

*My warmest regards,*
*Alexis Ramos*

Managing Editor

*To the class of 2017,*

*It has been an honor and a privilege to be the Managing Editor of the 2017 Crimson Log. All the memories we've made together throughout these last 4 years are depicted here in this yearbook and I hope you enjoy looking back at these moments as much as I did making them possible. It is bittersweet, but we will never forget the masterpiece we have made together and this book will always be there to relive our senior year all over again.*

*Being a part of the creation of this yearbook pushed me to be creative and imaginative every single day. It wasn't easy, but I couldn't have done it without my best friend and secretary, Ny-Jah Eastman. Thank you for always supporting my decisions and I am so proud of this book we have made together. Thank you to the staff, especially Zachary Branco and Autumn Souto for being the ones to always keep me laughing through the toughest times. Lastly, thank you to Ms Miller and Ms Oliveira for overseeing the production and allowing me to be a part of something beautiful.*

*Regardless of what comes next, never forget the memories we've painted here at New Bedford High School.*

*Best wishes,*
*Hanna Langevin*

# JAZZ It up

The Jazz Band and Jazz Combo speak words of perfectly blended harmonies while performing for concerts within the community and in other cities. Some of the school's best musicians lie within the chill mellow tones of the Jazz Ensembles– many of them being Seniors this year! The Jazz Combo alone, being the premier jazz ensemble, and considered one of the best ensembles in the school, holds four of the best Senior musicians at New Bedford High School.

Jazz, for many, is a venting opportunity; a time to release steam and have fun after a stressful school day. According to drummer **MAX PACHECO,** "Jazz means being able to express myself through the art form of Jazz and having the opportunity to play the music I love with some of my closest friends. This is one of my favorite things to do," states **PACHECO**. Playing Jazz makes connections both throughout your own performances with emotions, and also through the people you perform with. Such a connection is highly valued by musicians. These values extend to a point where they don't want to give it up. However, with Senior year coming to an end, some seniors begin to feel conflicted. Vocalist, **CARINA BORGES** joined for the first time this year and says, "I looked back and saw the band smiling and having fun. I wish I could have joined in the past years. However, the fact that it's my Senior year makes it even more special and a lot of fun,"says **BORGES**. These Bands Perform all over the state in places like The Berklee Jazz Festival in Boston and the winter concert here at NBHS, **ROBERT GARNDER'S** favorite performance. The Combo played "Superstition", and this was Robert's favorite performance. "We were all pretty hyped up and did a pretty solid job," said **GARDENER.**

*Displaying and celebrating our masterpieces*

The New Bedford High School Seniors paint a masterpiece throughout high school, and as they move on after graduation, they may want to revisit the memories that they have made during their years at school.

The making of all of these great memories throughout this yearbook would not be possible without our local advertisers, family members, and community supporters. These snapshots that have been taken throughout the yearbook are pictures that the students will be able to look back at whenever they would like to revisit their time in high school. " I will never forget my family and friends that have supported me throughout my four years of high school" said **RYLEE GANT**.

No one starts their life as a senior. Everyone begins as a child, learning the ins and outs of the world with the help of their family. High school is no exception. "Making your family happy is always the biggest accomplishment," said **TIMOTHY DUARTE**.

> "Making your family happy is always the biggest accomplishment"

Families and friends have put their own words and pictures in this yearbook to show love and support for their student that is about to graduate high school. When asked about who gives the most motivation to graduate, **ARIANA BEDOYA** responded, "My dad because he always tells me to not to give up, try hard in soccer and everything you do."

# The Final Stroke

"Every new beginning comes from some other beginnings' end."

A yearbook is a touchstone which enables us to make time stand still. As this stage of life comes to a final close, we will always have something to look back at, to always remember the times spent here at New Bedford High School. **ALEXIS SA** describes the ending of her high school years as "bittersweet." "I'm happy that I'm going to start a new chapter in my life, but I'm also going to miss the memories of high school," **SA** said. We should take our time painting these last memories of our time at NBHS because one day, we'll look back and realize that they were the big things we will always want to remember. **KAITLYN ARRUDA** said, "I feel sad, but prepared for what is next. I want to attend college and get my masters degree in elementary education." We all have plans for our future. Change can be scary, and moving on can sometimes seem difficult. "I feel sad, because of the friends I made, the high school experience, and seeing everyone going their own way not knowing if you'll ever see them again," said **YENSI SANTOS**. Ultimately, there comes a day when you realize that you have painted a beautiful masterpiece during high school, but that there is still so much more to create.

> "I'm happy that I'm going to start a new chapter in my life, but I'm also going to miss the memories of high school."
> **-ALEXIS SA**

The *Crimson Log* Staff would would like to extend our sincerest gratitude to **MR. and MRS. MARÈ** and the staff of Maré Studios & Gallery for their help in creating the 78th volume of the *Crimson Log*. **MR. NELSON MARÈ** took the portraits and pictures featured throughout the book.

The 2017 Editor - in - Chief **ALEXIS RAMOS** and Managing Editor **HANNA LANGEVIN** were in charge of the production of the 78th edition of the *Crimson Log*, working closely with their adviser **MS. MILLER.**

The New Bedford High School yearbook was created by the 24-student staff in class and after school from September, 2016 to April, 2017. The staff was led by Editor-in-Chief **ALEXIS RAMOS,** Managing Editor **HANNA LANGEVIN,** and Secretaries **NY-JAH EASTMAN** and **ADIAH RODRIGUES.**

The book is 8 1/2 x 11 inches. The cover uses process color lithography and soft lamination. Inside, the endsheets are printed using process color lithography, and each page is printed in full color on premium quality 100 pound gloss stock.

The staff designed layouts and worked on seven Dell computers using eDesign to make the pages of the yearbook. The cover was also produced in eDesign.
